Tech Experience

December 2023 - February 2024

Programmer Course

Code Cool I Budapest, Hungary

Designing and implementing a robust backend application using **Spring Boot**, showcasing proficiency in **RESTful API** development and **MySQL** database integration, while adhering to **agile development** methodologies such as **Scrum** and utilizing **Jira** for project management.

September 2023 - December 2023

Programming Bootcamp

Green Fox Academy I Budapest, Hungary

Intense bootcamp (60 hours a week) where I learned the basics of **OOP**, databases and developing **web applications** focused on **backend**.

Exam scores:

- 91.5 / 100.0
- 79.0 / 100.0
- 94.5 / 100.0

July 2023 - August 2023

Coding Camp

Green Fox Academy I Budapest, Hungary

Frontend focused course. Advanced practicing of **HTML**, **CSS** and the basics of **JavaScript**.

Most recent project

December 2023 - Present

Team of four developers, backend **Spring Boot** application. I took part of the implementation of **Continuous Integration**, **JWT token** authentication, **Logging**, **OpenAPI**, **Database Migration**, **Automated Email Sending** and many more.

Work Experience

2016 - 2023

Co-owner, Head Baker

Earthcake Ltd I Bristol, United Kingdom

Co-founded and managed a small business, honing **teamwork**, leadership, and **problem-solving skills**, which I now leverage to excel as a software developer.
